

M40 MODULES POWER GUARANTEE

The logo for Sol3g, consisting of a yellow circle with the text "sol3g" inside in a lowercase, sans-serif font.

A part from guarantee our M40 Modules over 5 years, we offer the possibility of guarantee the modules power over 25 years, from the “IKOC” start up certification date, according to the next outline:

- 90% of the nominal power after 10 years
- 80% of the nominal power after 20 years
- 75% of the nominal power after 25 years

This program is subjected to the previous installation start up certification by the costumer, (**IKOC**) and of the maintenance program monitoring for all modules cycle life (**CMP**).

IKOC: Start up certification

All the installations done with M40 modules will have to be checked for a Certification Technical Partner (**CTP**) with the purpose of verify the correct installation start up and activate like this the **power guarantee**.

CMP: Installation Certification Maintenance Programm

M40 Modules need a regular maintenance program for all its cycle life. A Certification Technical Partner (**CTP**) must certificate yearly that the maintenance carried out for the costumer has been established according to the program criterions (**CMP**).

CTP: Certification Technical Partner

Is a technical professional accredited by Sol3g which looks after the customer installation start up (**IKOC**) and the correct installation maintenance fulfillment according to the criterions established by Sol3g in the certification program (**CMP**).

Very important

The power guarantee described in this document is complementary to the product guarantee that Sol3g offers to its customers when they buy M40 modules.
